MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Policy Statement on Safety and Occupational Health

1. Safety and occupational health is a command responsibility inherent in everything leaders and supervisors do. Accidents can cause tragic loss of life and suffering, but always reduce work performance and lower quality of life.
2. While accident investigation and reporting are often the most visible elements of Army safety programs, the emphasis in the US Army Garrison Bamberg will be on prevention of accidents and occupational illnesses.
3. Supervisors must integrate risk management principles in to the planning and execution of everything they do. The success of our many missions and the safety of our employees and customers depend on it.
4. Leaders and operating personnel will maintain a safe and healthful working environment, and promptly evaluate and take action to correct hazards reported by employees or identified through accident investigations and/or inspections.
5. All employees will comply with established standards and promptly report all hazards to their supervisor or to the US Army Garrison Bamberg Safety Office, 469-1670 or Civ 0951-300-1670.

A handwritten signature in black ink, appearing to read "Steven L. Morris".

STEVEN L. MORRIS
LTC, AV
Commanding
