

RECYCLING & SORT GUIDE 2001

279th BSB DPW
Bamberg, Germany

H. DEED KNEE

Plastic recycling

Polystyrene Foam is not biodegradable, so the Styrofoam cup you use today, could still be on the earth's surface 500 years from now!!

Do Recycle

- Plastic bags
- Plastic bottles
- Plastic Cups
- Wraps / Foils
- Margarine cups
- Milk cartons
- Juice cartons
- Styrofoam
- Styrofoam peanuts
- Mix layered wraps.

Don't Recycle

Disposable Diapers
Leather
Rubber
Plastic wallpaper

The Community Recycling Center--established to serve you

The Recycling Center is in Warner Barracks III, that part of post where the Commissary, the PX and the 279th Headquarters is located. Coming from inside the community turn left at the MP-gate, you'll see it already. Our Recycling Center is open 24 hours, 7 days a week, but manned during normal duty hours only.

You have large amounts of recyclables i.e. cardboard, styrofoam, other recyclables? Bring it to our Recycling Center.

You have bulk refuse that don't fit in your normal trash dumpster. Our Recycling Center is the right place.

You can bring also:

- Cloths
- Electronic scrap
- Toys
- Wood/timber

And during duty hours
Household Hazardous Waste:

Paint
Thinner
Cleaner/Polish
Batteries
Waste Oil
Small POL contaminated items

Keep our Recycling Center clean! Use the containers for what they are marked! Don't drop harmful items after duty hours! Children might get injured.

Confused? Something not listed?
Suggestions? Ways to improve our program?
